

Cancer Survivorship

Peer Support Group

**~ Speakers ~ Information ~ Friendship
You're Not Alone!**

Our Goals: to educate through practical insight and firsthand experience but also through professionals in various fields. Empower people, share information, act as role models for each other, and to provide a safe place to talk about personal issues, experiences, struggles and thoughts.

- A peer generated emotional support group, led by a mental health specialist, for those diagnosed with cancer.
- We share common problems and experiences associated with this fight.
- We support each other by allowing open talk with people who understand what the obstacles are.

Last Tuesday Every Month ~ 6-7 P.M.
Call Today ~ 716-690-2031
