POWERED SLATE-CUTTING SHEAR

Make your power drill a powerful slate-cutting shear! This one-hand operation accessory quickly inserts into the chuck of a corded or cordless electric drill and requires less force than other slate-cutting methods. Smooth, easy one-hand operation always leaves a free hand to steady the work when making cuts on a bench or rooftop.

ETERNO IVICA NEW MAXI NM ADJUSTABLE SUPPORT

The NM range of adjustable fixed head supports are perfect for any kind of raised flooring applications with a minimal slope. Slight falls can be accommodate using the Eterno Ivica range of rubber shims found in the Accessories section.

NM is suitable for a variety of applications including decking and paving and is also suitable for use with Eterno Ivica Aluminium Joist System.

FEATURES:

- > Precision adjustment from 25 to 270mm using the Eterno Adjustment key
- > Heights up to 935mm achievable with NM Extensions
- > Integral anti-noise and anti-slip rubber bi-component head
- > Smooth support base of 320cm²
- > Resistant to acids and ultraviolet deterioration
- > Resistant to temperatures from -40 °C to +120°C
- > Fully recyclable
- > Can be used in conjunction with any outdoor flooring or decking

COMPATIBLE HEADS:

- > Bi-component head for tiles
- > Head for decking
- > 2 way head for aluminium joist system
- > 4 way head for aluminium joist system

ETERNO IVICA SE SELF-LEVELLING ADJUSTABLE SUPPORTS

The original and still the most innovative pedestal. The Eterno Ivica SE Adjustable Self-Levelling Support with a self-levelling head was the first of a long series of accessories for external elevated floors. It's a pedestal that combines superb technical features and exceptional aesthetics with maximum easiness of installation.

The dished head of the SE support enables it to correct slopes of up to 5%, adjustment is performed using an adjustment key, also manufactured by Eterno Ivica, which enables the paving to be levelled accurately with the paving in-situ. Trusted by architects, builders and installers worldwide, SE provides the perfect flooring solution.

FEATURES:

- > Self-levelling head, will automatically correct slopes of up to 5%
- > Adjustable height from 28 to 550mm, the most versatile pedestal on the market 320 cm² smooth base support
- > Fully recyclable
- > Resistant to temperatures between -40° to 120°C
- > Resistant to acids and ultraviolet deterioration
- > Suitable for use with any self-supporting outdoor paving system
- > Non-slip and anti-noise rubber incorporated in head
- > Tabs easy to remove

COMPATIBLE HEADS:

SE can be used with the following heads to make it perfect for any installation

- > Self-levelling head for tiles
- > XL Self-levelling head for tiles
- > Self-levelling head for decking
- > 2 way head for aluminium joist system
- > 4 way head for aluminium joist system

SMA SELF-LEVELLING A1 RATED SUPPORT

Adjustable metal support for elevated flooring, with self-levelling tilting head that can correct slopes up to 5%.

The support consists of a 100mm x 100mm square base which is 1.8mm thick, and a screw of threaded bar at the end of which is fixed a concave element that acts as the support seat of the tilting head. The support is completed by a self-levelling tilting head with 4mm tabs and an anti-tilting locking ring.

SMA is suitable for use in Paving applications.

Height adjustment is done manually with a 4mm Allen key; the support can reach heights ranging from 27mm to 458mm.

SMA1	28-35mm	PSSMA1

A1 RATED ADJUSTABLE SUPPORT 10-15mm
PSSTARTM

ETERNO IVICA STAR-T LOW HEIGHT ADJUSTABLE SUPPORT

This innovative little adjustable support can be used from 8mm up to 30mm and solves the problem of laying paving up to existing low door thresholds.

STAR.B is the only extension that fits Star.T, that enables to reach NM1 and SE0 adjustable supports; only one height for a versatile and simple product: it is placed under the Star.T increasing its height by 5mm and with the possibility to add more Star.B on top of each others in case of need.

Using 2 Star.T Extensions with the Star.T support you can reach a height of 25mm: from this height you can use the NM supports. Using 3 Star.T Extensions with the Star.T support you can reach a height of 30mm, height beyond which it is possible to use the SE supports.

FEATURES:

- > Height adjustment with Eterno adjustment key
- > The thinnest and most adjustable in the world
- > Millimetre accurate adjustment from 8 to 30mm
- > Possibility to raise of 8mm with one of the two components, then adding 5mm extra with Star.B

FIXED HEAD ADJUSTABLE PEDESTALS

Our range of Fixed Head adjustable pedestals from Eterno Ivica provide the perfect solution to any raised floor or decking project.
