The America's Pharmacy Source Program Offering

We are on a mission to change the Pharmacy Industry. We offer fair and honest pricing that is the lowest available, creating significant savings each month. We have four specialties that we focus on to save you the most money.

Acute Medications (Immediate Need)

This card includes the top 124 most prescribed acute medications for a \$5.00 payment, for up to a 21-day supply at over 64,000 pharmacies nationwide.

Maintenance Medications (Chronic Needs)

Maintenance drugs are medications prescribed for chronic, long-term conditions and are taken on a regular, recurring basis. Examples of chronic conditions are: high blood pressure, high cholesterol and diabetes, to name a few. These drugs are well-established medications that have proven safety and efficacy and are considered first-line therapy options for the treatment of common chronic conditions.

Over-The-Counter Medications (Everyday)

America's Pharmacy Source offers the most common Over-The-Counter medications, such as Ibuprofen, Acetaminophen, Fexofenadine, Diphenhydramine and others at a fraction of the price. We know the little things add up each month so we aim to save you money on the medications you use everyday.
