## **Full time Senior CAD Technician Position**

**Target Land Surveying (Surlang) Ltd.– Langley Office**, is growing and is seeking to add a dynamic Senior CAD Technician to our team. The position is ideal for an experienced Cad tech or LST looking to expand their skills by adding more project management responsibilities to their role.

The successful candidate will be responsible for drafting and preparing topographic, legal and construction survey plans under the direction of the project manager or BCLS.

This position offers valuable work experience and knowledge, within a supportive environment, to help build your career. Career advancement to a Project Manager role is the goal.

The pay range for this position is between \$25 and \$35 depending on experience. We pride ourselves on creating an enjoyable, inclusive workplace atmosphere striving for a healthy work-life balance. Excellent communication skills, a strong ability to collaborate, and a team-first mindset are all critical traits of the successful candidate.

Duties expected of candidate include, but are not limited to:

- Performing survey data processing and drafting plans.
- Calculating layout information and preparing files for the field crews.
- Working with Architectural and Engineering plans.
- Representing the Target Land Surveying brand in all communication and interactions with clients

Qualifications:

- Well organized, proactive, and detailed orientated
- Fluency in English, both written and spoken
- Experience using Microsurvey or AutoCAD software programs.
- Diploma or degree in survey/geomatics/engineering program preferred but not required
- Knowledge of TDS Survey Pro data collection software and Leica total stations

Target Land Surveying is a continually growing land surveying firm dealing in small to large scale projects. Typical survey work includes topographic surveys, single family home surveys, subdivisions, building layouts, townhouse stratas, highrise stratas and more.

Our focus at Target Land Surveying is creating the best land survey team in the Fraser Valley. We are proud of our foundational role in helping build our local community and are trusted for our knowledge, integrity, and ability to connect with our clients to meet their needs efficiently and effectively.

Interested candidates should apply by email with their resume to [adam@targetlandsurveying.ca](mailto:adam@targetlandsurveying.ca)  
Only candidates selected for an interview will be contacted.
